Accelerate Spray Adjuvant

DIRECTIONS FOR USE

SITUATION	APPLICATION RATE / 100L	CRITICAL COMMENTS
Post-emergent herbicides	0.3 - 1.0 litres	QA Accelerate Spray Adjuvant may be used in place of non-ionic surfactants or crop oils. Subject to spray volumes, usage rates may vary between 0.2 - 2.0 litres of QA Accelerate Spray Adjuvant per hectare.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

GENERAL INSTRUCTIONS

QA Accelerate Spray Adjuvant is a highly penetrating spray adjuvant suitable for use with certain post emergent herbicides. It improves herbicide performance by utilising the excellent penetration effect of esterified vegetable oils in combination with the wetting and spreading characteristics of non-ionic surfactants.

QA Accelerate Spray Adjuvant can be added to certain post emergent herbicides to increase efficiency.

In some situations, QA Accelerate Spray Adjuvant may reduce selectivity. Care must be exercised when applying QA Accelerate Spray Adjuvant with post emergent herbicides on sensitive crops under conditions where plants are subject to drought stress, high temperatures, and high humidity. If in doubt use precaution and trial by application to a small area before committing to a large scale application.

MIXING AND SPRAYING

Follow directions on the herbicide label. Half fill spray tank with water and add the required amount of herbicide while agitating. Top up the tank with water then add the required amount of QA Accelerate Spray Adjuvant and continue agitating while spraying.

PRECAUTIONS

Read all directions for use on the QA Accelerate Spray Adjuvant label and on the herbicide label. The herbicide manufacturer's directions and recommendations always take precedence over directions contained on the label.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

KEEP OUT OF REACH OF CHILDREN. Store in the closed original container, in a well-ventilated area as cool as possible. Protect from frost. DO NOT store for prolonged periods in direct sunlight. Under conditions below 0°C, QA Accelerate Spray Adjuvant may thicken and become cloudy. It returns to a normal clear liquid state above 0°C. Triple-rinse or preferably pressure rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recyclers or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers or product.

Refillable containers: Empty contents fully into application equipment, close all valves and return to point of supply for refill or storage.

SAFETY DIRECTIONS

May irritate the eyes and skin. Avoid contact with skin or eyes. Avoid inhaling vapour or spray mist. When opening the container and preparing the spray, wear overalls, rubber gloves and goggles or disposable spray shield. After each day's use wash contaminated clothing, gloves and face shield or goggles with soap and water.

FIRST AID

If poisoning occurs, contact a Doctor or Poisons Information Centre. Phone Australia 13 11 26. If in eyes, hold eyes open and flush with water for 15 minutes and see a doctor.

SAFETY DATA SHEET

For information refer to Safety Data Sheet (SDS) which is available from the supplier.

CONDITIONS OF SALE: Quantum Agrosociences Holdings Pty Ltd shall not be liable for any loss injury damage or death whether consequential or otherwise whatsoever or howsoever arising whether through negligence or otherwise in connection with the sale supply use or application of this product.
